

Barranco del Prado 2023-Viñedo Singular

You can always hope for something special from a vineyard which has experienced 3 centuries. That is the case with Barranco del Prado, pre-phyloxera ungrafted vines over 120 years' old and planted at an altitude of almost 800 metres. A real gem that reflects a long-gone form of viticulture which allows us to achieve the highest expression of purity and a reflection of the terroir of the Sierra de Yerga.
